# About Us

Al-Sharq Saltworks aspires to be the largest salt producer in the regional market and a key supplier in the Middle East and beyond. Located on the industrial side of the Dead Sea in Jordan, our facility harnesses the unique properties of this natural resource to produce a wide range of salts, including industrial, tablet, table, and chemical-grade salts. With advanced production technologies, we ensure efficiency and precision while upholding our commitment to sustainability and innovation .

# Our Mission

We enhance quality of life by utilizing the nutritional benefits of natural minerals. Our goal is to provide exceptional salt products and service, making them accessible to businesses and consumers worldwide. We are dedicated to expanding our global reach and setting new industry standards through cutting-edge technology .

# Our Vision

To be the leading global provider of premium salt products, known for our innovation, sustainability, and excellence. We aim to improve health and well-being worldwide while positively impacting communities and the environment .

# Logistics

Our salt products are carefully produced at our advanced facility located on the industrial side of the Dead Sea, ensuring exceptional quality and natural purity. We handle deliveries efficiently with our fleet of 100 trucks, capable of managing diverse transportation needs. For regional and international shipments, we leverage the MENA port in Aqaba, providing reliable and seamless logistics.

We offer a wide range of customizable packaging options to meet various customer needs. From 1 kg bags for retail and smaller applications to bulk shipments for large-scale operations, our flexible packaging solutions are designed to accommodate the specific requirements of our Food Grade Fine Salt, industrial salt, tablet salt, and chemical-grade salts. This approach ensures that all our products are delivered in the most suitable format for their intended use.

# OUR PRODUCTION CAPACITY

Al-Sharq Saltworks' production reaches over 500,000 tons of industrial salt, 100,000 tons of food-grade salt, and 10,000 tons of salt tablets .

## Quality Products :

We produce high-quality salt products with a purity of more than 99.7%, meeting industry standards and customer requirements. This ensures that our products are of high quality, suitable for various applications, and competitive in global markets.

## Product Variety :

Al-Sharq Saltworks boasts a portfolio of over 15 salt products, including food-grade salt, tablet salt, refined pure salt, and chemical industry salts. This diverse range meets various industry and consumer needs, ensuring a wide range of requirements are met.

## Innovation and Technology :

At Al-Sharq Saltworks, we adopt innovation and use the latest technology in salt production processes, including advanced equipment, automation, and process improvement techniques to enhance efficiency, quality, and consistency in our products.

## Quality Control :

Al-Sharq Saltworks maintains strict quality control procedures to ensure that salt products are safe. This involves regular testing, control, and inspection procedures to guarantee that products consistently meet the highest quality standards and comply with regulatory requirements.

# DISCOVER THE PURITY & VERSATILITY OF **AL-SHARQ SALT**

Al-Sharq Salt Company, is committed to harnessing the unique properties of salt to deliver high-quality solutions across a range of applications, with a **capacity of 1 Million tons** - Year. Sourced from the **Mineral-Rich** waters of the , Al-Sharq salt stands out for its exceptional **purity** and consistency.

The distinct mineral composition, rich in beneficial elements such as magnesium, calcium, and potassium, makes our salt ideal not only for **industrial** uses but also for **food-grade, cosmetic, and therapeutic products**.

Its high dissolution rate and minimal impurities ensure superior **performance** in processes where quality is paramount. Moreover, our environmentally conscious harvesting practices ensure that our products are sustainable and **eco-friendly**.

Whether used in manufacturing, health and wellness, or culinary applications, salt from Al-Sharq Salt Company represents the pinnacle of purity, performance, and versatility.

## **SPECIALTY BLENDS:** TAILORED SOLUTIONS FOR DIVERSE NEEDS

Al-Sharq Salt Company's Specialty Blends are tailored salt formulations designed to meet specific needs across culinary, industrial, and other applications. Combining high-purity salt with select minerals and additives, our blends offer exceptional quality and performance.

## **DEICING SALT:** OPTIMAL PERFORMANCE FOR EXTREME CONDITIONS

sourced from the Dead Sea, is highly effective at melting ice and snow even in extreme cold. Its unique mineral composition enhances performance, making it a reliable choice for safer roads and walkways. Available in various granule sizes, it's ideal for commercial and municipal use

## **NATURAL PURITY:** RAW DEAD SEA SALT

Is directly harvested from the Dead Sea, retaining its natural purity and rich mineral content. Minimal processing preserves its essential trace elements like magnesium, calcium, and potassium. With its coarse texture and unique profile, Raw Salt is perfect for diverse uses, from food processing to industrial applications. At Al-Sharq Salt Company, we ensure our Raw Salt meets high standards of quality and sustainability.

# AL-SHARQ SALT COMPANY PRODUCTS

## FINE SALT

Food grade	Purity	Moisture	Appearance
Fine sifter / iodized	≥99.6%	≤ 0.2%	Fine, uniform, white crystalline powder,
Medium sifter / iodized	≥99.6%	≤ 0.2%	White, medium sized, uniform crystalline granules
Mixed sifter / iodized	≥99.6%	≤ 0.2%	White, mixed-size crystalline granules

## POWDER SALT

Purity	Moisture	Appearance
≥ 99.5%	≤ 0.2%	White, ultra-fine powder

## LOW SODIUM CHLORIDE SALT

Purity	Moisture	Appearance
≥60%	≤ 0.2%	Off-white

## VACUUM SALT

	Purity	Moisture	Appearance
High Purity Vacuum Salt	≥ 99.6%	≤ 0.2%	White, transparent crystals or fine powder with a high degree of clarity.
High Purity Vacuum Iodized	≥ 99.65%	≤ 0.1%	White, dry, crystalline powder or granular form with consistent size and texture.

## SALT TABLETS

	Purity	Moisture	Appearance
High Purity Tablet	≥ 99.6%	≤ 0.2%	White crystalline powder or granules with a uniform size.
High Purity Vacuum Tablet	≥ 99.65%	≤ 0.1%	White, transparent crystals or fine powder with a high degree of clarity.

## INDUSTRIAL SALT

Industrial salts	Purity	Moisture	Appearance
Refined salt	≥ 99.55%	≤ 0.25%	White, fine to medium crystalline granules
Coarse fine salt	≥ 99.5%	≤ 0.3%	White, fine coarse granules, max size 0.8mm.
